Campus Election Engagement Project

Campus Election Engagement Project (CEEP), is a national nonpartisan project that helps administrators, faculty, staff, and student leaders at America's colleges and universities engage students in federal, state, and local elections. Drawing in stakeholders throughout our partner campuses, we combine our powerful resources with personalized coaching, guiding schools on how to use our resources and navigate students through ever-changing barriers to voting. Working with us, schools help their students to register, volunteer in campaigns, educate themselves on candidates and issues, navigate confusing voting laws, and turn out at the polls.

We believe that students have the power to shape the future we will inherit. Our organizers provide the training, professional support and resources students need to run grassroots campaigns and tackle issues that young people care about. As the largest and most diverse generation, one impactful way to shape our future and make sure elected officials are working for us, is to get young people registered and out to vote through peer-to-peer voter registration and mobilization drives.
